RECEPTION IS TOO WARM

**Perfection of Defenses by
British Causes Kaiser's
Chiefs to Change Their
Plans to Harass Enemy—
Raids on Rural Districts
Continue To Keep Guns
and Airships at Home.**

(From a staff correspondent of the
Associated Press.)

Geneva, Feb. 19.—The Zeppelin campaign against London has been found to be unprofitable. The cessation of German air attacks on the British metropolis, after the latest appearances of the big dirigibles over the city last fall, has been due not to fortuitous circumstances, but to the deliberate determination of the German leaders to abandon these attacks, as has long been done in the case of Paris.

The correspondent who was then in Berlin, was informed from a trustworthy source a few days after the final London raid of the decision to send no more Zeppelins and sister ships of the Schütteles type against London. Air raids against England, the correspondent was told, would not be abandoned entirely. They were considered to be of great service in holding at home guns, airplanes and men of the British aerial defense which otherwise would be freed for service in France. But in future the attacks would be directed against the provinces instead of London. The next and final expedition of the year, on November 27, was directed against the Midland counties, in accordance with this prophesy and resulted in the loss of two Zeppelins.

The predominant reason for the decision to discontinue attacks on London probably is the increasing strength and efficiency of the air defenses of the city, but the effect of the raids on neutral opinion in view of the contemplated peace overtures, may also have been a factor. It may be interesting in this connection to record a bit of unwritten history of the war. In the early days of the conflict, when the air raids were just beginning, President Wilson caused to be conveyed to Emperor William and the German government a personal and unofficial message which set forth that airship and airplane raids upon populous cities were looked on with disfavor by the American people, and contributed largely to stirring up anti-German feeling in the United States. In view of this the wisdom of their discontinuance was suggested. The message did not fall entirely on deaf ears, but the views of the military party prevailed and the air attacks, then the only German means of bringing home the realities of war to the people within the British Isles, continued. Later they ceased for a time, to the displeasure of an element which openly accused Chancellor von Bethmann-Hollweg of sheathing his weapon in deference to neutral opinion. This element was appeased but little by Count Zeppelin's published letter to the chancellor wherein the count disavowed responsibility for this accusation. The raids were resumed with the object of tying up within the islands and eliminating from the Somme offensive as large a number of anti-airship guns, airplanes, searchlights and men to equip them as possible.

Aside from this service, which is of considerable military value, the role of the Zeppelins in land warfare is now regarded in expert circles in Germany as decidedly secondary to their great value as scouting agents for operations of the fleet.

**FREIGHT TIE-UP
CRIPPLES SHOPS
IN PITTSBURGH**

(Associated Press Telegram)
Pittsburgh, Feb. 19.—The railroad freight situation, has resulted in a temporary suspension of industrial activity in the Pittsburgh district. The fires in approximately 40 furnaces in the district have been banked while various departments at many mills have been closed because of a shortage in cars which has prevented the bringing in of raw materials and the shipping of the finished products. Railroad officials estimate that more than 50,000 tons of structural material alone are jammed in the local yards awaiting movements while mills have continued to roll new steel until the mill yards will hold no more.

In the coal fields in this vicinity the mines are unable to operate more than 40 per cent. and last week the general average was not more than 20 per cent. As high as \$7 a ton is being paid at the mine for coal in carload lots. In the Connelville field spot furnace coke is being eagerly sought at as high as \$12.25 a the oven.

Panama, Feb. 19.—The canal zone authorities today ceased the publication of information concerning movements of traffic through the canal.

**Potatoes Sell at Five Cents Each;
Freight on Carload Is \$300**

In the past did you ever picture to yourself the buying of one lonely potato and paying five cents for it, like you would a loaf of bread, or a nice big orange.

Well potatoes are selling in the city for five cents apiece. Of course they are rather large ones, weighing nearly a pound, but in the good old days when you wandered to the grocery and secured a nice sack full for a nickel, you never thought— But then it is well one cannot foresee the future.

Potatoes are 80 cents a peck (used to be 40 and 45 cents a bushel) and there are 15 pounds in a peck, making them over five cents a pound. You can buy a bushel for \$3.10, but when the present supply is gone they will cost more. Most potatoes are being shipped from Washington state and one one car the freight charges are said to have been \$300.

**Brokers Make Enormous
Profits on Coal; New Bill
May Give Needed Relief**

(Associated Press Telegram)

Columbus, Feb. 19.—That coal brokers have made enormous profits in handling coal by reason of the demand and the advanced price of the product was the testimony of H. J. Merrick, superintendent of freight transportation of the New York Central Lines West, before the public utilities commission here today.

Merrick said one broker had told him that he had made \$13,000 in one week "scalping coal" and had made as high as \$140 on one 70-ton carload and that he was the third person to handle the car.

Merrick said the increased demurrage charges had very little effect because industrial concerns making large sums of money on war munitions and other products were

not concerned about demurrage charges.

While the railroads had placed embargoes against brokers consigning coal, Merrick and R. B. Harris, also of the New York Central Lines said the utilities commission could help them to enforce these embargoes by issuing a formal order abolishing the reconsignment rule. H. E. Speaks, superintendent of the Toledo and Ohio Central railroad also testified before the commission today.

Attorney General McGhee was preparing a bill today which will be made an administration measure and rushed through the legislature giving the utilities commission wider latitude in dealing with the coal situation. The hearing before the utilities commission was expected to be concluded today.

**MILITIA GUARDS
COURTHOUSE AS
TRIAL IS OPENED**

(Associated Press Telegram)

Murray, Ky., Feb. 19.—With Kentucky national guardsmen posted at points of vantage inside and outside the Calloway county courthouse the case of Lube Martin, a negro, charged with murder of Guthrie Duiguid, a policeman, was called for trial here this morning.

The scene presented was in sharp contrast to that enacted early last January, when Judge Charles Bush aroused such a storm by granting a continuance of the negro's case, that Governor A. O. Stanley found it advisable to make a hurried night trip half the length of the state to avert possible mob violence against officials of the court.

Today everything was quiet. There was little excitement of any sort and this apparently was the result of curiosity.

Last January a mob threatened the life of Judge Bush and Commonwealth Attorney Denny Smith, when it became known that the continuance in the negro's case had been granted. The two officials spent the night in a hotel which the crowd threatened to dynamite unless the negro was returned for trial. The excitement ended with the appearance of Governor Stanley upon the scene. He addressed a crowd assembled in the circuit courtroom, demanding respect for the law, and denouncing his purpose to protect the court by his personal efforts, if necessary, and promising that the negro Martin should be brought to trial in due course.

The militiamen at the courthouse are members of one of three companies that returned to Kentucky from the Mexican border at Governor Stanley's request after the outbreak here. At that time every available unit of the national guard was on the border and when the emergency arose there was no force upon which the governor could call to go to the assistance of the court.

**NO IRREGULARITIES
FOUND IN PASSPORTS
OF BERNSTORFF PARTY**

(Associated Press Telegram)
Halifax, Feb. 19.—The examination of the papers and effects of Count von Bernstorff, former German ambassador to the United States, and his suite, on board the Scandinavian American line steamship Frederick VIII is nearing an end, it was announced today. The ship has been detained three days and in order to expedite the search Canadian officials worked all day yesterday.

No irregularities have been detected in connection with the former ambassador's papers or with those of any in his party, the search officials state, while the cargo has been found free of contraband.

**FLETCHER ENTERS
PROTEST AGAINST
SEIZURE OF MINES**

Washington, Feb. 19.—One of the first official acts of Henry P. Fletcher, the new American ambassador to Mexico will be to protest against confiscation of mines not in operation on Feb. 14. Mr. Fletcher's arrival at the Mexican capital yesterday was reported today to the state department. His formal presentation to Gen. Carranza probably will not be later than Thursday and immediately afterward he will begin representations in various questions at issue between the two governments.

**FIVE STEAMERS
FROM WAR ZONE
REACH NEW YORK**

(Associated Press Telegram)

New York, Feb. 19.—Five steamships from war zone ports arrived here today. The British steamers Folia from Bristol and the Sebastian, from Rouen, both left after Germany's new submarine campaign commenced. The Folia, a Cunard freighter, came by way of Halifax. The other arrivals were the Belgian steamer Escourt, from Cardiff; French steamer Guyane from Bordeaux and the Dutch steamer Noorddyk from Rotterdam.

The Standard Oil tank steamer Wico sailed from here today for an unnamed European port, the first vessel of the Standard Oil fleet to leave an American port since the U-boat campaign was inaugurated. The Wico was not armed. Soon after the German restrictions were announced, the Standard Oil Company recalled by wireless all its vessels then at sea bound for the war zone.

FROM SUBMARINES**

(Associated Press Telegram)

Baltimore, Md., Feb. 19.—The Donaldson Line freighter Lakonia, of Glasgow, provided with the new smoke device of the British admiralty to render shipping immune from submarine attacks arrived at this port yesterday. The ship also carries a 3-inch gun mounted astern and several trained gunners to man it. According to one of the gunners today the new device perfected by British chemists and scientists, can generate enough smoke in several minutes to mask a vessel from the enemy's view for several hours.

The Lakonia encountered no enemy craft on the trip to this port but she was twice chased for several hours on the last outward bound voyage, first by a German ship thought to have been the commerce raider Vineta, and again by a submarine in the bay of Biscay. The Lakonia escaped both times by her superior speed.

**DAYTON FACTORY
DAMAGED; LOSS
WILL REACH \$20,000**

Dayton, Feb. 19.—A fire loss estimated at about \$20,000 was suffered by the Duriron Casting company early today. The origin of the blaze is a mystery. The heaviest damage came to the molding and shipping rooms, both of which were practically destroyed. City Fireman J. E. Alexander had his right leg broken from falling timbers during the fire.

**PHILADELPHIA IS

**Submarine Attacked Vessel

(Associated Press Telegram)

New York, Feb. 19.—In a 40-minute battle between a German U-boat and the French Line steamship Guyane off the coast of France on January 22, the submarine was sunk, according to officers of the freighter which arrived here today from Bordeaux.

The Guyane was one day out from port. At 3:30 p. m. Captain Rousselet said, the U-boat was sighted some distance to port and apparently was endeavoring to cross the freighter's bow in order to stop her. The submarine fired a shot which fell short and the Guyane then turned sharply to starboard so that her big 65-millimetre gun, mounted at the stern could be trained on the approaching vessel. The submarine fired a second shot which fell considerably short, and a third which struck the water close by the freighter.

Meanwhile the Guyane's gunner had sent one shell which failed to hit but struck very near its mark. A second shot from the Guyane, Captain Rousselet said, hit the U-boat squarely and the underwater boat was seen to collapse.

During the next 30 minutes the German craft appeared to be struggling for existence. No one appeared on the deck and no further attempt to shell the freighter was made, and the Guyane refrained from firing any shots. At the end of the half hour the submarine disappeared. The freighter's officers said they had no doubt but that the U-boat was lost.

The Guyane, a steel vessel of 2,003 tons, carries 37 men. There were no Americans aboard. She brought a general cargo of about 1,000 tons.

**WAR FRONTS QUIET
IN LAST 24 HOURS;
AIR RAID IN FRANCE**

(Associated Press Telegram)

New York, Feb. 19.—The activity in various war theatres reflected in the bulletins of the war office during the last few days has subsided temporarily. None of the official statements today indicated any really severe fighting during the last 24 hours. Operations along all the fronts have been confined to reconnoitering, artillery and aviation activities.

The current Paris official statement contains one item possibly forecasting a renewal of operations by the Zeppelins with the coming of more favorable weather. One of these big airships flew over the French coast on Saturday night, proceeding as far as Boulogne, near the entrance to the English channel. The bombs which it dropped did no damage, the French report declares.

Shipping agency reports today added one more steamer to the list of merchant vessels sunk as a result of the German blockade measures. The steamer was the British Iolo of 3,903 tons. Eleven men from the British steamer Romsdalen, which was on yesterday's list of shipping destroyed, are today reported missing.

**LINDSLEY TAKES
GOVERNOR'S CHAIR;
GOV. DEBACA DEAD**

(Associated Press Telegram)

Santa Fe, N. M., Feb. 19.—William E. Lindsley, Republican lieutenant governor will assume the executive chair today owing to the death yesterday of E. C. Debaca, a Democrat.

Mr. Debaca was ill when nominated for the governorship early last fall and took practically no part in the campaign. Soon after his nomination he went to a sanitarium in Los Angeles, Calif., where he remained until early in January. Against the advice of his physician he returned to Santa Fe to be inaugurated as governor.

**FORMER PRESIDENT
OF PITTSBURGH CLUB
DEAD AT HIS HOME**

Pittsburgh, Feb. 19.—William M. Kerr, aged 70, a prominent local business man and formerly president of the Pittsburgh National League baseball club, is dead at his home here following an illness of one week. Mr. Kerr was owner of the Pittsburgh club of the Brotherhood League which was organized by players who had revolted from the National League until the former organization failed. He then secured an interest in the National League team, disposing of his holdings in 1910.

**Stolen Auto Costs Youth
Sight of One Eye; Lands
His Companion in Prison**

Lying upon a bed in the City hospital, under constant police guard, one eye having been removed by surgeons, George Morrow, a lad of about 19 years is the victim of an accident that happened to an automobile which he will be charged with having stolen.

Morrow's companion in the alleged theft who was not badly hurt is in the city prison. He is Ben Bell also about 19, a son of E. V. Bell a well to do farmer on the Martinsburg road east of Utica. Morrow also lives on the Martinsburg road. The stolen car was E. M. Baugher's Buick which was damaged to the extent of at least \$300, upon which no insurance is carried.

The young men who the police say were intoxicated, probably took the car between 8:30 and 9:00 o'clock from in front of the Home Building Association. When on East Main street west of Cedar, whoever was driving either lost control of the machine or for the same reason that caused him to take it, ran the car upon the sidewalk. At Aich and East Main the automobile collided head on with a telegraph pole with a terrific crash.

Officer William Sunkle heard the noise and upon arriving at the scene, found that Morrow and Bell had gone to Dr. J. R. McClure's office corner East Main and Cedar. Bell who was not badly injured was taken to the city prison in the patrol wagon, while Morrow was taken to the City hospital in Bradley's ambulance. He was suffering from a laceration across the forehead, just above the eyes, which was attended by Drs. Homer Davis, J. R. McClure, and J. T. Harbottle.

On Sunday it was decided necessary to remove the right eye-ball which was done by Drs. McClure, Davis and C. B. Hatch. The young man recovered from the operation in fine shape and seems to suffer no serious effects from his experience as he said to the officer on guard this morning, "If you'll give me my clothes I can walk home in a couple of hours."

Officers Swinehart, Abbott and Williams are detailed by Chief Sheridan, and they alternate on guard at the hospital.

Chief Sheridan said this morning that it made no difference to him what arrangements young Bell's father made in settling with Mr. Baugher for the damaged car, he would himself file an affidavit charging the lads with the theft.

"Bell has been in this kind of trouble before," said the Chief, "and only about a year ago near Mt. Vernon stole a car and mashed it up in a covered bridge, which accident I understand cost his father about \$700 to settle and the boy was not prosecuted. But I will push this case myself."

Bell has retained Attorney H. C. Ashcraft.

**NAVY DEPARTMENT
GIVES SHELL ORDER
TO AMERICAN FIRMS**

(Associated Press Telegram)

Washington, Feb. 19.—Contracts for navy projectiles which had been let to Hadfields, Limited, an English concern were today given to the Midvale Steel Company, the Washington Steel and Ordnance Company and the Crucible Steel Company.

Hadfields was prevented by the British government from accepting the contract for 4,400 projectiles which had been awarded by the navy department at a much smaller price per shell and with quicker delivery than American offers.

Award of the contracts today to the three American firms terminates a controversy between the navy department and American munition makers. Representatives of the companies and department officials reached an agreement on a flat price of \$500 per shell. That is an increase over the price on similar orders in previous years but aggregates \$447,500 less than the former total bid. Contracts awarded the three American firms aggregate 14,200 4-inch armor-piercing shells. The companies guaranteed delivery in reduced time. The Midvale company will make 5,000 shells, the Crucible 5,000 and the Washington company 4,200.

**ECUADOR ASKS
CONFERENCE TO
DISCUSS ACTION**

(Associated Press Telegram)

Washington, Feb. 19.—Some interest was manifested here today in Ecuador's proposal for a congress of American nations to meet immediately and take "the necessary measures for securing a continental expression principally for the guarantee of the rights of neutrality and if it is possible for the alleviation of the rigors of war, to bar Borgona, Ecuadorian minister of foreign relations made the suggestion in a note to the Mexican minister of foreign relations responding to General Carranza's note to the United States and all neutral nations suggesting an embargo on foodstuff and munitions export as a means of bringing the war to an end. The Borgona communication dated at Quito, Feb. 17, says joint action of all Americans is needed to produce results as "the labor of one, separate from the others it has been demonstrated is unfruitful." Ecuador therefore, believes it essential that there should be an immediate session of an American congress which could meet, for example, in Uruguay."

**STEAMERS UNDER
AMERICAN CHARTER
SUNK BY U-BOATS**

New York, Feb. 19.—Two steamships out of New York under charter to the Kerr Steamship company, one Norwegian and the other Spanish, have been sunk in the submarine zone, according to advices received by the company today. They were the Dalmata, Norwegian, Jan 24 for Havre, and the Mar Adriatico, Spanish, Jan. 16 for Bordeaux. The Dalmata was sunk Feb. 9 and the Mar Adriatico Feb. 11. The latter arrived at Lisbon on Feb. 2 and was probably proceeding for Bordeaux when sunk. Officials of the Kerr Steamship company said they did not believe either vessel had Americans aboard.

STEAMER SUNK.
London, Feb. 19.—The British steamship Okement, 4,324 tons gross, also has been sunk, Lloyd's announces. The Okement was last reported on her departure from Rio Janeiro, December 1, for St. Vincent, Cape Verde Islands.

**Chances of Attack on Amer-
ican Ships Reduced Tem-

Washington Officials—
Sailors to be Released.**

(Associated Press Telegram)

Washington, Feb. 19.—The submarine situation seemed at a standstill today with the government apparently closely watching developments, steadily preparing itself for eventualities and adhering to its plans for taking action to protect American rights when the moment arrived.

The slackening of the ruthless campaign in the last three or four days is regarded as reducing the chance of an attack on American ships or loss of American lives, but with the coming of warmer weather, it is expected to increase in intensity.

There was no further indication today of the President's plans for going before congress to ask for additional authority.

Through the Spanish embassy the state department has been informed that the American sailors taken as prisoners to Germany on the prize steamer Yarrowdale "would be released shortly." The state department forwarded to Berlin Saturday a request for their immediate release. A previous message inquired as to the reason for keeping the men prisoners and insisting upon their release.

Because of the slow and uncertain communication between Washington and Berlin state department officials were unable to decide whether today's dispatch was in answer to its last request or the previous one.

State department officials are watching the situation with some impatience.

Austria's real attitude perplexes officials here and there is hope that Ambassador Pentfield will find some way to influence the Vienna government not to formally sanction the extreme position taken by Germany. No answer has been received to a direct inquiry as to whether Austria intended to follow Germany.

It was authoritatively said at the state department today that so far nothing has been heard from the Central Powers as to what course they would take in the event that the United States authorized the arming of American merchant ships.

It was stated definitely that President Wilson has made no plans so far for going before congress although it was not denied that he still is considering the advisability of such a step. In some quarters it was believed possible that he might conclude not to go to congress at present.

Officials generally said, however, that some means must be found for getting American and other vessels to resume sailings. While consideration has been given to various suggestions for arming and conveying merchantmen, it was considered possible that before long the vessels may sail of their own accord.

Although officials maintain reticence there has been an unmistakable lessening in the tension within the last two or three days.

**BRITISH MAY NOT
DECLARE HALIFAX
A PORT OF CALL**

(Associated Press Telegram)

Washington, Feb. 19.—British authorities have encountered so many difficulties in the plan to make Halifax a port of call instead of Kirkwall that they may abandon the idea or at least limit to cargo ships.

The British government has been giving this state careful study but up to today had not reached a decision although it had been expected that a formal notice would be issued last week.

While disposed to adopt the new practice partly in the interests of neutrals the British authorities have found so many practical difficulties in the way that they are inclined to insist upon adherence to the old rule that ships coming within the war zone must report at Kirkwall. It is said to be certain that if any examinations are permitted at Halifax they will be limited strictly to cargo boats for the reason that mail and passenger ships require much more extensive inspection force, estimated as high as 5,000 men who would otherwise be in military service.

The state department has been unable to make any official request to Halifax a port of call because to do so would involve a recognition of the whole scheme of the entente blockade.

ELFVEN SAILORS MISSING.

London, Feb. 19.—Eleven men of the crew of the British steamer Romsdalen, reported sunk yesterday, are missing. Lloyd's shipping agency announced today.

The British steamer Iolo, of 3,903 tons gross, has been sunk. Lloyd's Shipping Agency announced today.

TODAY IN CONGRESS

The congressional business for today is thus summarized:

Senate:

Met at 10:30.
Passed omnibus pension bill.
Passed miscellaneous relief and bridge bills.

Resumed debate on government espionage and anti-conspiracy bill, Senator Cummins proposing amendments.

Senator Simmons gave notice to call up the emergency revenue bill Tuesday.

House:

Met at noon.

Sundry civil appropriation bill reported, carrying \$138,242,000.

**BRITISH SUBSCRIBE
3½ BILLIONS TO
THE NEW WAR LOAN**

(Associated Press Telegram)

London, Feb. 19.—The money subscribed to the new British war loan is at least 700,000,000 pounds, exclusive of contributions from the banks, Andrew Bonar Law, chancellor of the exchequer stated in the house of commons today.

Mr. Bonar Law said the number of applications received for the war loan on the last day was so large that 200,000 or 300,000 would not be dealt with and the result would not be known until next week.

"I am glad, however," the chancellor said, "to be able to say that the loan has succeeded to a greater extent than I expected but not greater than I hoped. I hope, however, that what I have just said will not encourage exaggerated estimates which might create the danger that what I consider amazing financial efforts of this country would be minimized when the actual figures were known."

"When I was asked what the amount of new money I considered necessary to make the loan a success, stated a figure which was larger than I expected but not as large as I hoped. The figure was 600,000,000 pounds. Without taking into account direct contributions from banks which it is desirable to avoid that figure already has been exceeded. The excess will certainly amount to \$100,000,000."

Above everything else CERTAIN-TEED stands for quality, efficiency and economy. Any product bearing the name CERTAIN-TEED will deliver all three in heaping measure.

Certain-teed Certain-teed

Roofing Paints and Varnishes

is the most efficient type of roofing for all kinds of buildings. For the sky-scraper a built up roof of CERTAIN-TEED is now recognized as the ideal roof.

For factories, especially where the roof area is considerable, the light weight, economy and long life of CERTAIN-TEED makes it by far the most desirable type of roof. For garages, out-houses, farm buildings, the economy, ease of laying and long life make CERTAIN-TEED superior to any other. For residences CERTAIN-TEED Slate Surfaced Shingles are artistic, light weight, economical.

CERTAIN-TEED costs less to buy, less to lay, and less per year of life. It is light weight, clean, sanitary and fire retardant. It will not dry out or rust, and is absolutely weathertight.

CERTAIN-TEED is made in rolls, plain and slate surfaced; also in slate surfaced shingles. Three thicknesses, but only one quality—the best. Guaranteed 5, 10 or 15 years, according to thickness (1, 2 or 3 ply), but will outlive the period of guarantee.

The long life of CERTAIN-TEED is due to its quality and the saturation of a special blend of soft asphalt, kept soft, and prevented from drying out, by a coating of harder asphalt.

If you are building, or need a new roof, it will pay you to investigate CERTAIN-TEED before deciding upon any type of roof. For sale by dealers everywhere.

LEROY F. TENNY WOOL MERCHANT CALLED BY DEATH

Leroy F. Tenny, aged 75, died at 2:00 o'clock this afternoon at his home, 397 German street after a week's illness of pneumonia. Mr. Tenny leaves one sister who was hourly expected today from her home in Denver.

For many years Mr. Tenny was a prominent business man in Newark and at the time of his death was an active member of the firm of Tenny & Morgan, wool merchants.

BIDS ARE OPENED FOR \$35,000 WORTH OF CITY'S BONDS

Sealed bids were opened in City Auditor Nelson Dodd's office at 12 o'clock today, for three issues of Newark's city bonds. Bonds of each issue bear interest at 4 1/2 per cent.

The first issue was \$6000, the money to be issued to contract a sewer from the north end of Jefferson street, thence westerly along the east bank of of Raccoon creek to Western avenue, thence west to White Athletic field.

The second issue is for \$15,000 to be used for the purpose of laying additional distributing pipes to improve the water works system.

The third issue is for \$14,240 the money to be used for the extension of the sewer system.

The New First National Bank of Columbus was the highest bidder, offering a total premium of \$490.25 for the entire issue of \$35,940.

Considering the state of the bond market, and the comparatively short time of these bonds' maturity, the premium is considered a very good one.

Council will award the bonds at tonight's meeting.

The following are the bids received:

Sidney Spitzer & Co., Toledo, \$201; Stacy & Braun, Toledo, \$155.16; Spitzer, Rorick & Co., Toledo, \$81; Cummings Pruden & Co., Toledo, \$435; Tillotson & Wolcott Co., Cleveland, \$328.42; Ohio National Bank, Columbus, \$275.80; The New First National Bank, Columbus, \$490.25; The Provident Savings Bank & Trust Co., \$97.04; The Fiebel-Elischak Co., Cincinnati, \$301; Breed, Elliot & Harrison, Cincinnati, \$326.42; Seasongood & Maier, Cincinnati, \$383.

Channer & Sawyer of Cincinnati, bid a premium of \$86.64 for \$14,240 worth of bonds. The Licking County Bank and Trust Co. bid \$186.14 premium on \$21,600 worth of bonds. The other bids were for the entire issue of \$35,940.

DICKEN FARM IS SOLD TO PRODUCE BRICK MATERIAL

The A. W. Dicken farm, located along the Shawnee division of the Baltimore and Ohio, on the Dor Leg road about three miles southwest of Newark, has been sold to persons representing the Townsend brick manufacturing interests of Zanesville.

The farm consists of about 61 acres and the price paid is understood to have been \$175 per acre.

A stone crusher will be put up by the Townsend company and a valuable brick-shale will be crushed and shipped to the brick yards in Zanesville.

ASKS INTERVENTION.

Washington, Feb. 19.—Alfonso Gonzales, recently deposed as president of Costa Rica and who was afforded an asylum in the American legation at San Jose called on Secretary Lansing today and protested against the action of Minister of War Federico Tinoco in seizing the government and setting himself up as provisional president. Gonzales has asked the United States to intervene and restore him to power and requested that the United States refuse to recognize the de facto government.

ENGLISH MONEY IS USED TO INFLUENCE PAPERS MOORE SAYS

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 19.—In another futile effort today to obtain consideration of his resolution to investigate the charges that 25 American newspapers had been subsidized by English money to drag this country into war with Germany, Representative Moore gave the house a busy and noisy half hour. He thundered that his resolution should be adopted, defied one Washington newspaper to show why the tone of its editorials regarding the war had changed, charged Representative Lenroot of Wisconsin, with uttering a "deliberate falsehood" about him and then shouted that he would continue his fight tomorrow and the next day. Pacifists applauded Mr. Moore's remarks loudly.

SENATOR HEARS 100,000 SPIES ARE NOW IN AMERICA

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 19.—Opposing amendments by Senator Cummins to temper some of the stringent provisions of the espionage bill pending in the senate, Senator Overman of North Carolina today declared he had been told there were 100,000 spies in the United States and that it was absolutely essential that drastic laws be enacted to protect naval stations, submarine bases and other national defenses.

AIR DRIVEN ICE BOAT CARRIES MAIL TO ISLAND IN LAKE

(ASSOCIATED PRESS TELEGRAM) Sandusky, O., Feb. 19.—An air-thrust motorice boat, driven on the aeroplane principle, was put in service today on the winter mail route between Lakeside and Kelly Island, in Lake Erie. The trip of about six miles is made in nine minutes.

NAMED AS ADMIRALS

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 19.—The president today nominated Captain Harry S. Knapp and William L. Rodgers to be rear admirals and a number of naval commanders to be captains.

SOCIETY WOMAN ARRESTED

(ASSOCIATED PRESS TELEGRAM) Cleveland, Feb. 19.—Mrs. Ralph D. Mitchell, prominent club woman and charity worker was arrested today on a charge of distributing immoral literature. It is alleged by the police that she caused the distribution of birth control literature.

CONDEMNS SUBMARINES.

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 19.—Bolivia has replied to Carranza's note proposing an embargo on all supplies to the belligerent nations by suggesting L. B. Emerson in its reply, a conference of American neutrals. The note condemns the unrestricted submarine warfare.

EX-SEN. MOORE DEAD.

(ASSOCIATED PRESS TELEGRAM) Springfield, O., Feb. 19.—Former State Senator Justin A. Moore, aged 47, a member of the Eightieth and Eighty-first general assemblies died here today after an illness which began two years ago while he was serving in the state senate.

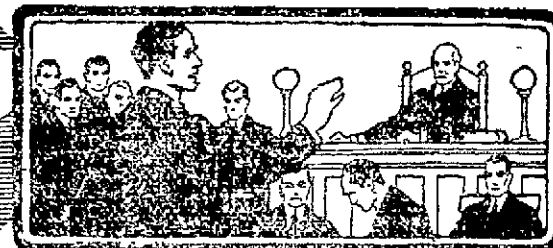

Mrs. Harry Sprague of 38 Stevens street was taken to the City Hospital today in Bradley's ambulance.

In Every Walk of Life PLUTO WATER

AMERICA'S PHYSIC

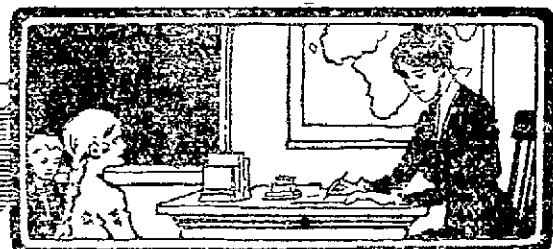

EXPERIENCE — the great teacher — has proved that man's mental activity depends upon the condition of his eliminative system.

The keen, clear-thinking man of accomplishment is always on his guard against constipation. He knows sluggish bowel action is certain to impair

his mental efficiency. He knows, too, that his record as a doer depends upon his general physical well-being and that constipation is the first step on the road to ill-health and premature old age.

Those who work with their brains indoors are more apt to be constipated than those who work with their hands outdoors. During the winter months

especially they should insure regular and complete bowel action by flushing the system at regular intervals with PLUTO Water, America's Physic and nature's own remedy.

Bottled at French Lick Springs, America's garden spot of health, PLUTO is a gentle, persuasive, positive laxative. It is also a wonderfully helpful cura-

tive agent in the treatment of kidney, liver and stomach troubles, rheumatism and nervous disorders.

Unlike other laxatives, PLUTO does not lose its effectiveness by repeated use and there is no necessity to increase the dose to secure the desired result. For those who are chronically constipated, PLUTO is a remedy of constant dependability; for those who have need of an occasional

physic, it is pleasant to take, certain in its action, and has no unpleasant after-effects.

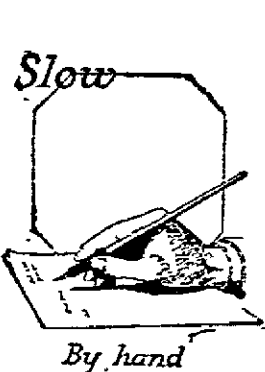

If you can't visit French Lick Springs, you can buy a bottle of PLUTO at your druggist's and enjoy the benefits of its remarkable curative properties.

There is only one PLUTO Water. Look for the little red devil on every bottle. It is there for your protection.

Obituary

Mrs. Catherine Knight King.
The passing of Mrs. Catherine Knight King breaks another link in the chain which binds our rapidly growing city to the old town of Newark and removes another one who stood for the best of its old social life.

One whose life had been so continuously spent here and whose forbears were such potent factors in the business and social life of old Newark deserves more than a mere notice.

She was of Quaker descent, on her mother's side. Her mother, Martha L. King, another sister, and a brother, Nathan King, were brought to Newark by their father and mother, Mr. and Mrs. Joseph King, in the early days of our city's history.

They came from New Jersey, and it is worthy of note that they were among the passengers of the first canal boat arriving from the East. This was a gala day for Newark. The boat was met by the most prominent citizens led by Mr. Israel Dille, who did the honors of the town. Mr. Dille has as his descendants now in Newark, Mrs. Anne Black and Mr. Frederic M. Black. Mr. Dille took them to his home, which then was in the northern suburbs, and was one of the show places of Newark. Our Mrs. King's mother, Mrs. Knight afterwards remarked about the beauty of its gardens and the staidness of the house. This place later was known for many years as Myrtle Hall, and my earliest recollections of Newark, as a little boy, are associated with the beauty and variety of the roses there and the circular and winding paths in this formal garden with the rivulet winding its way through it. It was then owned and occupied by the late Lewis Evans and family and consisted of all the ground north of our present St. Clair street.

The arrival of Mr. Joseph King marked a new industry in Newark, which soon became an important one, the making of hats. His son, Nathan King, founded the hat and shoe store on West Park Place, which was in turn conducted by the late Oren G. King, and then by his son, Mr. Fred King. Mr. Joseph King's daughter, Anna, married the late Major Abner Dennis, and for many years graced the beautiful home on South Third street across from the present county jail.

Martha L. King, the other daughter and the mother of Mrs. Catherine Knight King, married Mr. James Knight, the chair maker, and whose factory was located at the place now occupied by The American Tribune. Mr. and Mrs. Knight lived at the corner of Second and East Main streets in the house now owned by Mrs. Barker. It was here that Catherine Knight was born in 1842. It is worth noting that two doors east on Main street, William A. King, and in no way related to the New Jersey King, was born some years before and was destined to become the husband of Catherine Knight. Mr. James Knight and family moved a few doors farther east next to where the Pythian Hall now stands. Here Catherine Knight passed her happy girlhood—was graduated from the Newark schools and for a time was a valued teacher in the schools. The Knight family was strongly identified with the Presbyterian church, and she sang in its choir. Her noble, lovable and gentle qualities endeared her to all. In 1863 she was married to Mr. William A. King, the attorney. For a time they lived on the terrace of West Main street, which was torn away to make the present Farmers Market. They afterwards moved to the old King homestead, which stood on the site of the Auditorium. This homestead was moved to its present place on North Second street. It was here her husband died several years ago and where her dear son also died two years ago. Here she passed her widowhood surrounded by all the loving care of her daughters, and here she died on Saturday at noon.

She has a brother, Dr. Joseph Knight of Boston, who comes to pay his last tribute of love. A sister, gentle and kind, and known to us all as "Aunt Clara," went on some few years ago.

Mrs. Catherine Knight King's entire life was passed with two blocks of the square, yet her influence was unlimited. Her life was finer and better than that of many

women of broader advantages and wider experiences. Like a piece of fine old lace or a rare bit of china it stood for the best. Her life was like a beautiful prayer, her death was like a benediction.
Willard Curtis Rank.

Mrs. Chas. Moore.

Mrs. Josephine Moore, wife of Chas. L. Moore, died at her home, 94 Flory avenue, Sunday morning at 9:45 o'clock, after an illness of four years. Mrs. Moore's maiden name was Josephine Brownfield, daughter of the late Jacob and Rebecca Brownfield, formerly prominent citizens of Licking county. She was born August 13, 1855. In June 30, 1878, she was united in marriage to Chas. L. Moore and to this union were born six children, four of whom are living, two having preceded her, to the great beyond, Ray in infancy, and Grace Josephine, who departed this life just six weeks ago.

Those surviving are Guy of Jackson, Miss. Stanley and Ralph of Newark, and one daughter, Mrs. J. P. Lashart of Columbus. Four sisters, Mrs. T. C. Jury of Jacksonville, Mrs. John Eskew of Mason, O., three brothers, Benjamin of Jacksonville, Elmer of Newark and Calvin of Denver, Colo., also survive. She joined the M. E. church at an early age and lived a faithful Christian life until the end. She was a woman who had a very large circle of acquaintances, who recognized in her a woman of true worth and refinement. Her death was a peaceful sinking into eternal sleep.

Beautiful rest for the weary, Lying so peacefully ever,
Under the sunlight and dew,
Floats through our heartstrings a quiver.

Like breath of a whisper sweet,
He giveth—to his beloved,
And mother has fallen asleep.

The funeral will take place from the home Tuesday afternoon at 1:30 o'clock from the home in Flory avenue, Rev. Robert Northey officiating. Interment will be made in Cedar Hill.

Mrs. Herbert Moore.

Grace Carolyn Moore, 29, wife of Herbert Moore, died at her home 542 Stratford avenue, Akron, Sunday afternoon at 4 o'clock, after a lingering illness of several months, much time of which was spent at Asheville, N. C., in an effort to benefit her health. She was brought to her home in Akron just before the new year, where death came.

Mrs. Moore is the daughter of Mr. and Mrs. George Platto, 412 West Church street. She had always resided in Newark, being graduated from the Newark High school with the class of 1906 and later was a student at Ohio University at Athens. She is survived by her husband, two children, her parents, Mr. and Mrs. Charles Platto and one sister, Mrs. George Blain of Akron.

Short funeral services will be held at the home in Akron and the body will be brought to the Platto home in West Church street Tuesday evening, where funeral services will be held on Thursday.

Mrs. Esther J. Williams.

David Jones Williams, daughter of Esther and Gwen Jones was born in Cardiganshire, South Wales, November 4th, 1823, and passed away at the home of her son, Fred Williams, Saturday, February 17, 1917, at 3 p. m. Funeral services were held at the home on Monday at 10:30 a. m. and burial made in the Welsh Hills cemetery.

She, with her parents came to this country in 1826, settling in the Welsh Hills, Licking county, Ohio, where she spent most of her life. On June 14, 1840 she was married to John W. Williams, and to this union were born eleven children, six of whom with her husband preceded her to the Great Beyond. She was baptized into the fellowship of the Welsh Hills Baptist church at the age of thirteen and has been a faithful member of the same church for over eighty years. She leaves to mourn her death five children, D. E. Williams of Columbus, Mrs. Bishop of Newark, Mrs. Charles Thornton of Alexandria, Hiram and Fred Williams of Welsh Hills, also twenty-four grand children and twenty-eight great grand children.

Her life has truly been an inspiration to all who knew her, and "her children arise and call her blessed."

The same loving hand that guided her up the steep and rugged hill of life led her safely down the western slope to the "City which needeth not the light of the sun, nor the moon, for there is no night there."

Mrs. King's Funeral.

The funeral of Mrs. Katherine King took place this afternoon from the late home in North Second

street, Rev. Don D. Tullis conducting the services. Interment in Cedar Hill cemetery.

Patrick Delaney.

Patrick Delaney, aged 72 years died at the home of his sister, Miss Mary Welsh, 391 East Main street, Sunday morning at 6 o'clock. The deceased has been in ill health for three weeks and death resulted from paralysis. He leaves to mourn his death, one sister, Miss Mary Welsh, and a host of friends.

He was born in Ireland, and was a retired blacksmith.

The funeral services will be held on Thursday morning at 9 o'clock at the Blessed Sacrament church and interment will be made in Mt. Calvary cemetery.

J. French McCray.

Funeral services will be held tomorrow afternoon at M. E. church in Reynoldsburg for J. French McCray, aged 85, who died yesterday. He is survived by five sons and one daughter. Burial will be in Reynoldsburg.

Mrs. E. Willert.

A. E. Willert, manager of the Woolworth store, received word today of the death of his mother, Mrs. E. Willert at her home in Milwaukee at 6 o'clock Sunday evening. Mrs. Willert has been ill for the past five years and was aged 70 years.

She is survived by two daughters, Mrs. J. J. Caughlin and Miss Emma Willert of Milwaukee, and six sons, Otto F., George S., Ernest, Hermann of Milwaukee, August W. of New Orleans and A. E. Willert of this city.

Mr. Willert leaves this evening for Milwaukee to attend the funeral.

Hotel Fires.

The latest hotel fire horror will
make travelers uneasy as they go to
rest in their sky bedrooms. The
thirteen or more people who were
their lives in such a fire at Minneapolis
were not taken every night in
thousands of inns. The same thing
with even more fatal results may
occur in almost any city.

American hotels are careless on
the fire question. The majority are
not well provided with fire escapes.
Often the fire stairs are connected
only with sleeping rooms instead of
corridors. In case of a fire the
guests would not know where to find
them, or perhaps could not get to
the escape through a locked door.

Various devices for escape from
the windows are used. In case of
a fire people would be so
confused that they could not make
intelligent use of them. It would
take a circus performer to get out
safely on the ordinary plain rope
that is placed in many rooms.

The only secure protection is a
well constructed system of fire
escapes reaching corridors in each
section of every floor well marked
by red lights.

Many old fashioned people would
never lodge in a hotel in a room
above the third floor. If they
couldn't get a room at that level,
they would go elsewhere. Nowadays
people are less cautious, and they
trust themselves wholly to the hotel
people. But in the smaller hotels
particularly there may be no com-
petent watchman. The man who is
supposed to keep awake may spend
most of the night snoring on a couch.

If a hotel can't afford adequate
protections, it should not be per-
mitted to let rooms on high floors. It
is a business policy however to
provide good fire equipment. It
gives such an impression of security
and thoroughness that it is a
splendid advertisement of the busi-
ness.

Bad Trade.

In any town, no matter how pros-
perous, there is always a certain
proportion of merchants who com-
plain of bad trade. They make a
melancholy report of local business
conditions. Nothing doing is the
burden of their refrain. So far as
they are concerned, there is no
money in circulation.

Yet the currents of prosperity are
flowing by their door. Hundreds of
thousands of people are taking their
stores every day, most of them with
money in their pockets, bound either
for some other local place of
business, or on their way out of
town to buy.

There is plenty of money and
plenty of prosperity at this time. If
business is dull or if it does not
grow, there must be something the
matter with us or our methods.

Usually the trouble is that the
public has a kind of prejudice
against such stores. Somehow, it
has got the impression that there are
no up to date and new things
going on in the same old fashioned way
that they did years ago.

The trouble in such a case is al-
most invariably that that store has
done nothing to bring itself before
public attention. It simply opens its
doors in the morning, and expects
the public to enter without further
solicitation. But the public is not
built that way. It does not care
much to visit stores unless it feels
in advance that it is going to buy
something there. People hate to go
into a store and then walk out with-
out buying, particularly in their
home town where they are known.
So having this impression in their
minds, a little unfavorable to such
stores, they simply keep away from
them, or only visit them when they

The Gardening Movement.

(Columbus Dispatch.)

In Newark, according to the Ad-
vocate, preparations have already be-
gun for school gardens such as have
been maintained in Columbus for
several years under the direction of
the recreation department. There,
a high school teacher has been se-
lected to have personal charge of
the work, and he will not only tell
the children how, but go into the
gardens and show them how.

Discussing the movement, the Ad-
vocate commends it as a means of
turning the schools to practical
things and teaching the children de-
mocracy, industry and thrift, as well
as the joy of living, by bringing
them into touch with the things of
nature.

Another good influence that ought
to be mentioned is the cultivation of
patience—the willingness to plant
and to wait the results. The many
of us lack this quality. We are in
too great a hurry. We do things
and, if the results are not immedi-
ate, we abandon the project. That
is one reason why tree planting is
not more general. If we could plant
a sapling one day and find the tree
the next, the revenges in the forests
would not be so serious. Because
we cannot get immediate results, we
deem the planting not worth while.
But it is patient waiting that makes
the paying orchard or the growth of
lumber that means the fortune of
lumber.

The economic value of grading
this year is exceptional. There are
thousands of families who, by plant-
ing and tending their own gardens,
can materially reduce the high cost
of living. Really, the arguments
for gardens are many and good,
while those against are, for the most
part mere excuses.

Every Day is Flag Day.

(New York Sun.)

If war comes it will bring the
heavy costs of war, the sacrifices,
the personal losses, the unending
griefs, some and perhaps many of
the direct horrors of war, that we
have been seeing so vividly, if war
it will surely cost hundreds of mil-
lions; but it will bring likewise to
this nation a blessing so inestimable
that figures running into trillions
or quintillions would be inadequate
to signify its value to the united
American people.

We have witnessed the regenera-
tion of France into a glorious, ser-
ious manhood. We have seen Britain
aroused from the stupor of a pros-
perity complacently accepted as mat-
ter of course. We have seen our
kindred across the Canadian border
measuring up to new ideals of na-
tional opportunity and duty. We
have seen everywhere indifference
transformed into passionate devo-
tion, cynicism becoming heroism,
sordid selfishness and luxurious self-
indulgence disappearing in fine self-
abnegation, individual character ex-
alted by the magic of the common
cause.

Not the sword but the flag is to be
the agent of the new change. Let us
keep that standard and started our
object, the beautiful and beloved em-
blem of a united republic, constantly
before our eyes and close to our
American hearts.

can political affairs two decades or
more ago, has sensibly abated, is il-
lustrated anew by the seating of the
Republican candidate for governor
in Arizona.

Elected by the narrow margin of
thirty votes in a total of fifty-five
thousand, he calmly relied on the
justice of his case and the impar-
tiality of the courts. A Democratic
board of election returns, after a
careful scrutiny, awarded him the
victory, and a Democratic secretary
of state issued to him the certifi-
cate of election.

Though the outgoing Democratic
governor declined to accept the re-
sult or give up possession of the of-
fice, which he had so narrowly
missed re-election, the state supreme
court, made up of Democrats, has
confirmed the Republican's title.

Time was, and not so long ago,
when a state in which the decision
hung on so slender a thread would
have been brought to the verge of
civil war as a decision was reach-
ed. But we do things differently
nowadays. Democracy is winning
its way as an instrument of exact
justice.

Farmers Buy Autos.

(Portland Oregonian.)

It is natural, when one studies
the situation that the farmers of
the country should now be buying
half the automobiles that are on the
market. Aside from the fact that
the farmer has had a year of excep-
tional prosperity and that the dis-
tances he travels make some ve-
hicles an economic necessity, he is
in a better position to keep an auto
at a minimum expense than is the
city man. In the first place, he is
likely to be something of a machin-
ist and will do a good deal of his
own repair work, being forced by
his distance from town to rely on his
own resources. Then he is likely
to have a barn or a shed already
built, and will put to no expense for
the building or rent of a garage.
Almost every time he goes anywhere
he saves time that is an asset in his
business. If he is wise, possession
of the auto enables him to reduce the
number of his horses sufficiently to
pay for the gasoline he consumes.
The city man has no such offsets,
and unless he uses the auto in his
business, he must figure on a clear
added expense.

Let's Make Garden.

It is of course not advisable to be-
gin tearing up the turf of the back-
yard this morning; but strange as it
may seem, much can now be done
by preparing to start various vege-
tables under cover. Incent as the
season is today, the time for start-
ing various staple garden products
is only a few weeks distant. Now is
therefore, the time for careful and
leisurely planting.—Rochester Dem-
ocrat.

Gossip From
State House

Columbus, Feb. 19.—Tax legisla-
tion is expected to be the dominant
subject before the general assembly
this week. The special taxation
committee is expected to report out
a bill in some form to take the
place of the Parrett-Whittemore
act, recently held unconstitutional
by the Ohio supreme court, and a
bill for relief of debt-burdened citi-
zens is expected to be formulated and
presented for passage this week.

The administration's agricultural
bill and highway bills also will be
up for action this week. Governor
Cox will have the Reynolds woman's
presidential suffrage bill presented
to him for his signature. Governor
Cox has announced that he will act
upon the bill as soon as it reaches
him. He has not said what he will
do with it but suffragists say they
have intimations that he will sign it.

The House and Senate steering
committees will be organized this
week and will direct the work of ex-
pediting the session so that it may
be concluded in March. These com-
mittees will report out administra-
tion measures and are expected to
sidetrack scores of minor measures.

Labor representatives are endeavor-
ing to get the Tom Reynolds bill,
providing for an eight-hour day for
all working women, passed at this
session but there is strong opposi-
tion offered by the manufacturers
and others who declare it would
have a serious effect on the labor
market and the present industrial
activity of the state.

Although Columbus boasts of a
100 per cent pure water supply,
members of the legislature do not
drink it. Instead they buy drinking
water from a local water supply con-
cern. Members of the House have
consumed about \$25 worth of drink-
ing water so far this session.

The roof of the state house annex
in which are housed the members of
the supreme court, leaks, so it was
reported to Gov. Cox recently and
for the purpose of making repairs
in the roof and other repairs about
the building a \$5,000 appropriation
is carried in the governor's budget,
presented to the lawmakers last
week.

Registered lobbyists about the
halls of the general assembly are to
have their names published this
week in a pamphlet for the benefit
of members of the legislature, so
that when a lobbyist approaches a
representative he may look in the
book and see whether he is registered
or not.

Representative Kessler of Adams
county has taken up the cause of
the minor employees in state insti-
tutions seeking an increase in salary.
Some of these employees have orga-
nized, it is said, to obtain an increase
which was refused them by the state
board of administration under which
they are employed. A resolution in-
troduced in the legislature by Rep.
Kessler directs the board of admini-
stration to increase the pay of all
state employees receiving less than
\$720 a year by 25 per cent.

that what we wrote was this:—

Did You Know
That the salary of the President
of the United States was the subject
of discussion in the First Congress
for the reason that the Constitution
declared that the President should
receive compensation for this ser-
vice? Washington had notified his
fellow citizens that he desired no
salary. The limits suggested in Con-

gress ranged from \$15,000 to \$70,
000. The salary was finally placed
at \$25,000 and remained at this
figure until President Grant's sec-
ond term, March 3, 1873, when it
was increased to \$50,000. Chapter
2918 of the Laws of the Second Ses-
sion of the Fifty-ninth Congress, ap-
proved March 4, 1907, appropriated
"for travelling expenses of the Presi-
dent of the United States, to be ex-
pended at his discretion and ac-
counted for by his certificate solely,
\$25,000." In the Second Session of
the Sixteenth Congress the matter
of increasing the President's salary
was again considered and it was de-
cided that it be fixed at \$75,000 a
year.

Mrs. Wilson Hawkins was hostess to the Research club members on Saturday afternoon at her home in Granville street and the following interesting program was given:

Religion in South America—Miss Mary Kilpatrick.
Reading—Mrs. Theodore Taylor.
Piano Number—Miss Junia Sells.
Vocal Solo—Mrs. H. F. Moninger accompanied by Miss Sells.
Original Poem—Mrs. M. L. Wilson.
Critic—Mrs. Martha Slinger.

On Saturday afternoon Mrs. Charles H. Spencer entertained the members of the Review club at her home in Granville street. The program was given over entirely to Major David P. Cordray, who told of his experiences in the Philippines and China. Major Cordray is retired from field and foreign service owing to poor health, and is with his mother in North Fourth street. He had twice been sent to the Philippines and told of his trips there, the unusual experiences, the people and the customs. He also spoke most entertainingly of his work in China, while stationed there.

Mrs. Dan Shock of Burt avenue entertained Tuesday evening with a valentine surprise party in honor of the birthday anniversary of Mrs. Alva Leak.

The decorations were red and white and cupid's arrows were used as place cards. The other appointments were in keeping with the valentine scheme. Mrs. Leak received many pretty gifts. About fifteen guests were present.

Lamb—Lynn.
Mr. John P. Lamb Jr. and Miss Mabel Lynn were united in marriage by Rev. J. Emory Walters at the parsonage of the East Main street M. E. church Sunday afternoon at 4:30 o'clock. They were accompanied by Mr. and Mrs. J. P. Lamb and Mr. and Mrs. T. Lynn. The bridegroom is the son of J. P. Lamb, of east of the city and the bride is the daughter of Mr. G. T. Lynn of this city. They will make their home at 512 East Main street.

Miss Pearl Coon delightfully entertained the Halcyon Girls' club Saturday evening at her home west of this city. The evening was spent in crocheting and music was furnished by an Edison machine. Dainty refreshments were served the members and one guest, Miss Mary Futey of Shadyside, O., who is a guest of the hostess.

The second class in the first aid to the injured instructions will meet at the Y. W. C. A. this evening, when Mrs. Frank Ray, who has been lecturing under the auspices of the Red Cross in Columbus, will be present and have charge of the bandaging. Mr. Hopkins, who has charge of this work for the Boy Scouts, will also be present and have a demonstration.

Bickel-Dennison
Spring flowers, jonquils and tulips, were banded upon the altar at the Church of the Blessed Sacrament Monday morning when at 8:00 o'clock the marriage of Miss Rose Bickel and Mr. George Dennison was solemnized.

Cathedral candles intermingled with the flowers, and the pastor Rev. Father C. H. Watterson celebrated the nuptial high mass.

As the bridal party entered the church, the bride's cousin, Miss Bernice Floyd, organist, played the Mendelssohn wedding march. The bride wore a tailored suit of gray with hat and shoes of the same shade. Her bouquet was a corsage arrangement of bride's roses. She was attended by her sister, Miss Grace Dennison, who was attired in a suit of the new apple green shade, and wore a corsage bouquet of pink sweet peas. Her hat was also of green straw. Mr. Bickel's best man was Mr. Raymond Campbell.

Following the ceremony, a wedding breakfast was served at the home of the bride's parents, Mr. and Mrs. James Dennison, 216 Lawrence street. Again the decorations were suggestive of the springtide, the sweet-scented tulips arranged in baskets gracing the bridal table, and the spring flowers were used throughout the rooms. Fifty guests, relatives of the bride and bridegroom, were entertained at breakfast.

Mr. and Mrs. Bickel left for a wedding trip east and on their return will be at home in Lawrence street. The bride is the daughter of Mr. and Mrs. James Dennison, of Lawrence street, while Mr. Bickel resides in Wilson street. He is employed as a surveyor.

Mrs. B. F. Brown entertained the members of the Omega Embroidery club at her home, 33 Oakwood avenue with a Martha Washington party, it being the second anniversary of the club. Mrs. Edward Brown rendered some beautiful selections on the piano and during the afternoon little Gladys Young rendered some music and songs. Several selections by the members were sung. The appointments were unusually attractive, in keeping with the approaching holiday. Washington's birthday. The scene around the table was picturesque, each member wearing Martha Washington costume. The table was centered with pink and white carnations, and individual red candles furnishing the only light. Red hatches were given as souvenirs.

A delicious three course luncheon was served to the members and following guests: Mrs. Edward Brown, Mrs. Grace Young and children, Gladys and James, and Miss Bernice Brown. A strand of red hearts was arranged across the room and a guessing contest was held. Mrs. B. F. Brown and Mrs. D. Hague winning the favors. Mrs. J. C. Motgomery, president of the club, was presented with a gift by the club.

From a woman's point of view the smaller the shoes the greater the feat.

Milady's Boudoir

Beauty and Afternoon Tea.
The afternoon tea has become rather conventional and necessary institution in this country, and is altogether a pretty habit.

The afternoon tea, considered from the health viewpoint, is decidedly more harmless than some other social functions, where late hours are observed and an excess of dancing is indulged in overheated rooms. It occurs in these dull hours in the late afternoon, when there does not seem ever to be anything very exciting going on; the tea itself, when made right, is a wholesome enough beverage, mildly stimulating, not heavy, cleansing to digestive organs.

The main temptation at an afternoon reception which is a foe to good complexion, is found in the things which so often accompany the tea, such as rich sweets, elaborate cakes, large and small sometimes varied sandwiches, of almost unearthly composition, and things, both sweet and sour, which stimulate the appetite.

All of these are usually very good and the temptation is to partake, not wisely, but too well, and thus spoil a perfectly good dinner appetite, load up the stomach, and pimples and secks in a few days appear upon the chin and forehead.

The afternoon tea guest as well as the afternoon tea user, will therefore be warned in time and choose sparingly of all of these kick-saws, and condiments. Just a small portion of this or of that just a tiny bit of many things will not harm her, but to yield to temptation and to take too much, to overeat, particularly of sweets, is to make a mistake which no girl careful of her complexion will be guilty of.

Our Boys and Girls

The average outfit of the average baby should be, first of all, a little loosely knitted vest, especially valuable on account of its warmth, lightness and porous qualities, which should be made double-breasted and with long sleeves. This, in addition to a warm belt, will make two very important garments.

The next thing must be a flannel petticoat, and this should be made long enough to pin over baby's feet with safety pins when there is any fear of cold, as when the child is taken out of doors. Then comes a washing frock with long sleeves.

These are really all that are needed although there is no reason why a petticoat of fine lawn, made on the same lines as the flannel one, and a frock of similar fine muslin or lawn, should not be substituted for the stouter washing frock when fancy dictates.

Every Day Etiquette

"Will you kindly tell me if it is proper to pick asparagus up in the fingers to eat it?" asked George.
"It is very improper to eat asparagus in such a manner. All that is edible can be cut with a fork," answered his father.

A Sepulcher of Broken Hearts.

In the old Franciscan church of the Holy Cross rises one of the two monuments disdaining Florence condescended to give her greatest poet, whose greatest honor lies in his gift to the world at one splendid sweep of a pure and recreated Italian language—until his time halting and feeble—in that immortal masterpiece of literature, the "Divina Commedia."

This church might well be known as the Broken Hearts instead of Santa Croce, for near Dante's cenotaph—his exiled ashes still rest in Ravenna—lies the body of that other terrific genius, Michelangelo, who, broken in spirit, died gladly when the city so dear to his heart felt once more upon dark and tyrannous days. And Gallei is here, too, and Alfieri, and Machiavelli, and many another, a brilliant train.

Michelangelo's last work is in the nearby church of San Lorenzo, in the mortuary chapel of the Medici, the great house which designed to favor him with its patronage or its enmity throughout his life.—National Geographic Magazine.

PRACTICAL HEALTH HINT.

Morning Headache.

Early morning headaches may be due to many causes—eye strain, kidney trouble, dissipation, too much smoking, over-eating of proteins, excessive mental labor or too high blood pressure. The Medical Record quotes some observations by the French doctor, Renon, which extended over fifteen years and in which he found in many cases excessively high blood tension.

When the persistent headaches are so severe that they unfit the sufferer for work it is generally found that his heart is enlarged and his kidneys are affected. Such cases often speedily terminate fatally, but intensive treatment will alleviate the symptoms. The Medical Record says coal tar derivatives and tobacco must be shut off. The patient must have mental rest. He must go on a purely milk diet for at least a week, after which he may eat fruits and vegetables on certain days for two weeks more. A light, low protein regimen follows for several weeks.

You Never Can Tell.

LITTLE LILLIAN ROMAINE FISHER CAN TALK AGAIN

This attractive little lady is the two year old daughter of Mr. and Mrs. O. M. Fisher, 238 North St., Harrisburg, Pa. Last winter she had an attack of measles, together with a very severe cold. Just at that time Druggist S. J. Wilhelm presented Mr. Fisher with a jar of the Southern "outside" treatment—Vick's VapoRub Salve, which was just then being introduced in Harrisburg, and requested that he give this preparation a thorough trial. Mr. Fisher writes—

"I must say that our baby had such a cold on her chest and in her throat that she could hardly talk, and we could not get her to take anything internally. After we used Vick's VapoRub Salve on her breast and throat at night before going to bed she was entirely relieved. No family should be without this preparation. It is externally applied, and so can be used freely—it is absorbed through and penetrates the skin, and, in addition, is inhaled as a vapor. It has a hundred uses for the many minor ailments for which every mother is the doctor. Three sizes, 25c, 50c or \$1.00.

GERMANY CHARGES GERARD BETRAYED ROGER CASEMENT

(Associated Press Telegrams)

Amsterdam, Feb. 19, via London.—Count von Reventlow devotes the leading editorial in the Berlin Tages Zeitung today to an attack on James W. Gerard, former American ambassador, whom he accuses of having used his official position deliberately to transmit important war information to the entente by way of America.

"Many indications," he writes, "have continually pointed to the theory that the uncontrolled cable service and letter service to the United States permitted to the American embassy had also been an uncontrolled method of communication with London and Paris. This was being illustrated in the events which led to the capture and execution of Sir Roger Casement. Thus London learned in good time of the enterprise which led Casement to the Irish coast and his capture followed. American Ambassador Gerard and his personnel were the ones who delivered the honorable Irishman to the hangman."

An attack on American newspaper service from Berlin is appended and the article closes with an expression of hearty thankfulness that Mr. Gerard has left Berlin.

SAY FULTON MAY BE OUT FOR GOVERNOR.

(Columbus Citizens.)
"Secretary of State W. D. Fulton for governor of Ohio in 1918."

That was the prediction made Saturday at the capital by several Democrats.

For several days a rumor has been permeating the state house that Fulton had his eyes on Cox's job in 1918. Friday the report reached the governor. Governor Cox made no comment.

Fulton said he never has given a thought of becoming a candidate for governor in 1918—"though the job was one any man would be glad to have."

Congressman George White of Marietta, visiting in Columbus this week, is said to have mentioned Fulton as a capable man to head the Democratic state ticket in 1918.

LIVING ON YOUR NERVE

Everybody has a store of nervous energy. When work or worry without sufficient rest exhausts this store a condition results that medical men call neurasthenia.

It is commonly met with in those who have had keen anxieties, as those who have cared for sick relatives, business men who worry over their affairs and neglect to take vacations. Women who are too active socially, anyone who has too much excitement and too little rest may show the symptoms.

The complexion becomes pale, you imagine unpleasant things, your brain insists on working when you want to go to sleep. Sometimes you are melancholy. Things that used to please you no longer do so. Concentration is usually present. You worry about yourself and your work and cannot forget your anxieties.

No doctor can cure neurasthenia. You have to do it yourself. The first thing is to write to the Dr. Williams' Medicine Co., Schenectady, N. Y., for the booklet on the home treatment of nervous disorders. If you want to start the treatment before the booklet comes get a fifty-cent box of Dr. Williams' Pink Pills from the nearest drug store and follow the directions carefully.

Will pay for the chance to heal Catarrh

After an experience of 25 years, during which time 50 million Americans have used Kondon's Catarrhal Jelly, the manufacturers of this remedy feel so sure that it will relieve catarrh—that they offer to pay for a chance to prove its benefit to any catarrhal sufferer. They announce that any resident of this community can go to almost any drug store and get a complimentary trial can at the expense of the manufacturers. If the drugist has no gratuitous packages, the person may buy a 25 cent tube with the unqualified understanding that if that first tube does not do that person more than a dollar's worth of good, he or she can get their quarter back from either the drugist or the Kondon Company at Minneapolis. Over 35,000 drugists know Kondon's Catarrhal Jelly is effective, harmless, clean and pleasant to apply—and they know the Kondon people will gladly live up to this offer—"quarter back if not worth a dollar." QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the sublimated calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them, 10c and 25c per box. All drugists.

HIS SWEETHEART

THE THEATRES

AUDITORIUM.
"Frolics of 1917." Tonight, whole music interlarded with clever dancing, will secure their seats ahead of time for the evening performance of the "Frolics of 1917." If they don't want to be disappointed, they will be at the Auditorium (the big theatre) this evening. It is put on for fun and you will witness the changes and meet up-to-date show of the season. The cast includes Arthur Connolly, "The Little Taid" who needs no introduction to patrons of Wheel shows. Miss Lillian Chapman, a prima donna of sweet voice and rare personality. Gladys Sears, Trixie Taylor, a scintillating new to the show world. Frank Weston, Al. Ray-

appealing than the antics of the pen-pal, and a sea-climber that shown. Every one of them is an unconscious comedian. All are absolutely true and the unassuming sight of a human being or even the clicking camera seems to fill them only with native curiosity but not at all with fear. In fact, they are innocent of the fact, indicated in animals in other climes. By way of proving this, when an infant sea-climber is awakened from comfortable sleep on his bed of ice or couch of rock by the persistent prod of one of the men, the subject at first merely waves his flipper as much as to say, "don't bother me." No less amusing and human are the penguins. One portion gives the im-

mightily hard to get a new idea now-days, but the authors have one that many thousands of theater goers will appreciate for it is just a little different from anything else ever seen on the stage.

Life in a crowded apartment house is the subject of the play, and its group of amusing people are all finely drawn types which exist in every community and are recognizable by all their fellows. The fact that their distresses arise from a too great proximity in an apartment house provides merely the skeleton for the action.

"Twin Beds" is first a clever comedy, second a scintillatingly amusing one and last, a comedy with more than mere situation to recommend it.

"After Unborn Child." Will medical societies split on the question of birth control? Racial differences of opinion are developing among them and what the outcome will

eph. Jim Hamilton and Ethel Connolly. The musical numbers are all new and catchy and in some cases are exclusive. The chorus is one of the best that left New York this season. They have some dancing numbers that will make you sit up and take notice. It is predicted that the stage of the Auditorium theater will be taxed to its uttermost capacity, taking care of the massive production that is carried by this company. As an extra feature and one that is causing no little amount of talk, there will be added to the already heavy bill, and which will appear at every performance, is America's greatest

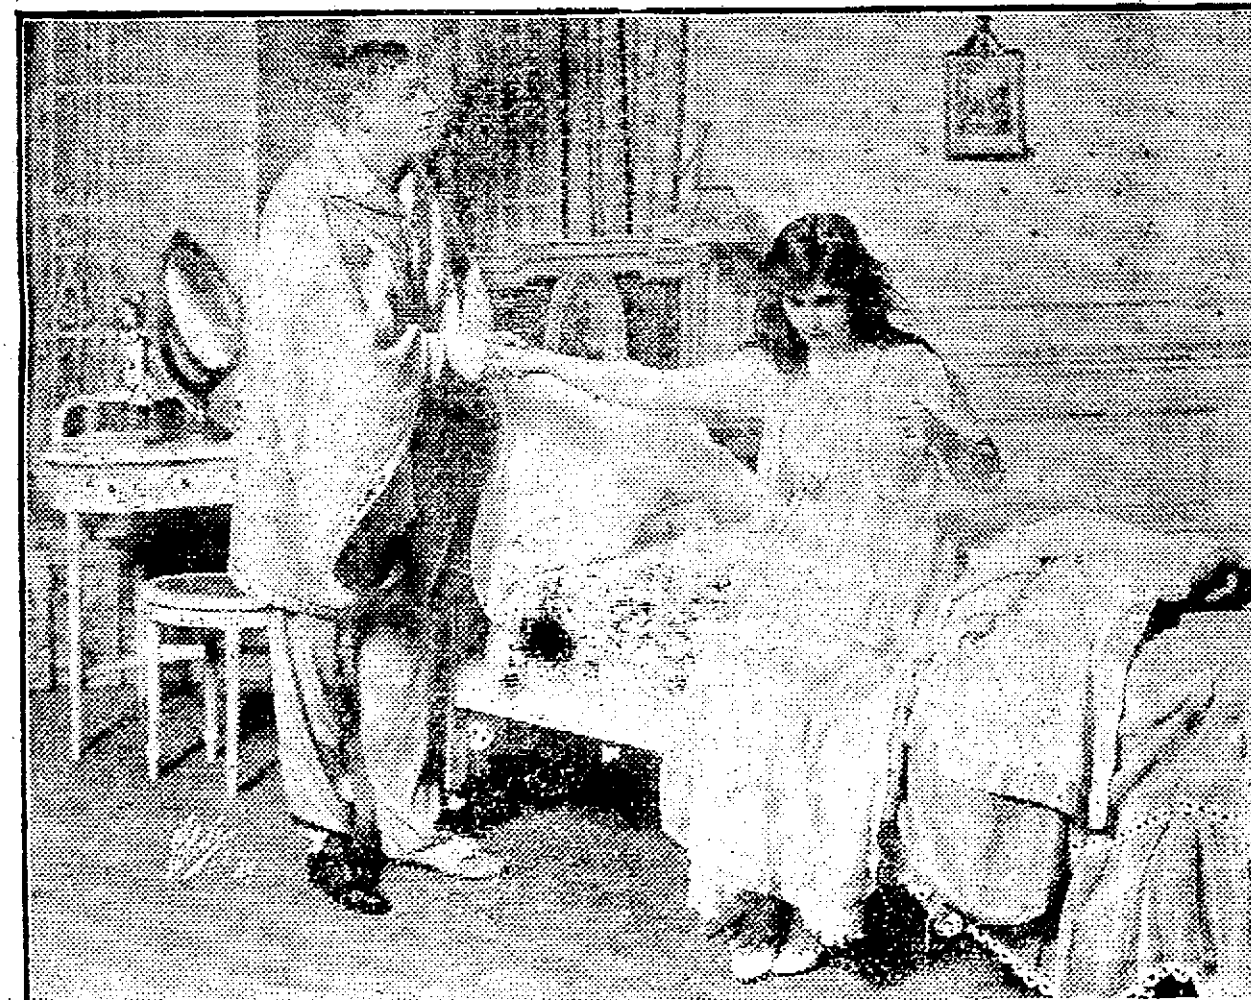

pression that not all of them lead a sober and proper existence. For three of them were filmed just after being caught in a blizzard. Their black and white clothes are all awry and their whole appearance radiates dishevelled just as though they had indulged too freely.

A most pleasing diversity of other subjects will also be presented including spectacular automobile races over the stage, a charming course of Giant's Despair, Wilkes-Barre, Pa., as well as a liberal measure of quaint humor and merry-making, provided by Howe's exclusive "comics" which are

be no one ventures to predict with any real accuracy.

What will the stage, the great educator, do about it? With medical organizations grappling with the problem, women's clubs debating it and the municipal authorities looking up statutes applying to it, it is not surprising that the play-writers have taken hold of the question.

A new drama entitled "Her Unborn Child" deals with this subject, or at least with an angle of it which more than one family has faced. It is announced for presentation here at the Auditorium next Saturday for matinee

Scene from the big laughing festival

electrical wizards, "Fred La Reine & Company," demonstrating the rare possibilities of the X-ray and other highly novel items connected with their exhibition. They will be assisted by Miss Mabel Schein, "the human dynamo," who will be singing.

Bird and Animal Comedians.
The most remarkable features of the season of circus and snow ever recorded on film will be presented by Lyman H. Howe at the Auditorium tomorrow evening and evening. They tell the story of St. Louis's Museum's exhibition to Antelope, an antelope and so on, that was in a cage and spotted with a red and white and there are few things funnier and more

cleverly interspersed throughout the program, seats now on sale.

"Katinka."
That musical comedy lyrics need not necessarily be series of nonsense syllables through which to string the thread of the composer's melody is illustrated in "Katinka," which Arthur Hammerstein will send to the Auditorium next Wednesday evening. One of the songs, for example, "I Want to Marry a Male Quartette," has a keenly satirical idea back of it. I. e., the fair young singer in search of a husband puts forth the theory that four men would be little more trouble around the house than one, and having four there would always be a chance that one might amount to something. Around this idea is built a full-grown farce, though probably it would take a Frenchman to do it. Another song, "Four Beds," suggests that kissing the girls that frames it is a "chilly occupation" and it would be well for you to hurry home. Seats now on sale.

"Twin Beds."
No play that ever came to Newark has so thoroughly amused the theatre-goers as has "Twin Beds." Sal. Henry Field and Margaret Mayo's merest of all comedies, which returns to the Auditorium next Friday and continues through the week, under the direction of A. S. Stern and company, will make the play of the day and to give new meaning to the phrase of living. The humor of "Twin Beds" lies in its simplicity. It is

and night. During this engagement, the Saturday matinee performance will be reserved exclusively for the ladies. The dramatist has handled his subject in a sympathetic way, but graphically, and there is mother-love depicted in it that makes a strong appeal.

Telephone Orders.
Owing to the large mail order list on "Katinka," the Auditorium manager Fenberg states that telephone orders received today and tomorrow will be held until noon Wednesday, after that they will be placed back in the rack for sale. This attraction is assured a complete sell-out as the advance orders now are the best that any attraction has received so far this season.

ALHAMBRA.

ZIEGMAN STARTS TRAINING HERE FOR BOWSER BOUT

Henry Ziegman of Lorain, B. of R. T. middleweight champion aspirant for more honors in the wrestling game, arrived in Newark Sunday and this afternoon started his final workout to prepare himself for the match Thursday night with Paul Bowser at the Auditorium. Ziegman is training in a gymnasium in the rear of Trombetta hall in East Newark. His training work will be public and he has extended an invitation to Newark wrestling fans to call in the afternoon or evening and see the fun. Tonight's workout starts at 7:30 o'clock. Ziegman says he is in good shape for the match and his work this week will put the finishing touches on his effort to meet Bowser in the pink of condition. Bowser has started more serious training for the match and there is every indication that the two men will be well fitted for the test of strength. Bowser has been making an effort to secure a class of judo-jitsu wrestling from Denison who have been trained there by a Japanese student. It has not been definitely decided if these men will appear.

MIAMI DEFEATED BY DENISON IN FURIOUS CONTEST

Granville, Feb. 18.—With a 14-11 score against it at the end of the first half, the Denison basketball team showed a complete reversal of form during the second half with the result that the much-couted Miami team fell a victim to the onslaught of the Granville team Saturday night, 29 to 21. Denison took an early lead, Meredith counting a field goal after the starting whistle had blown. However, Miami counted another moment later, tied the score. From there on the game was a nip and tuck affair.

The home team brought the audience to its feet in the first minute of the second half by scoring three field goals in quick succession. From then on Denison took the lead and was never headed.

It was without a doubt the hardest fought game of many seasons and the large crowd went wild over the result. For Denison, as usual, Jenkins played a star game, although netting but two baskets. He played a wonderful game at guard. Wilson, at right forward, played a stellar game the last half, making four field goals during that period. For the visitors Coulter and Munn played in the big roles. Lineup: Miami 24. Wilson, rf. 10. W. Sexton, rf. 10. Cook, lf. 10. H. Sexton, lf. 10. Meredith, c. 10. Kersting, c. 10. Denison 21. Munn, rg. 10. Earnshaw, lg. 10. Coulter, lg. 10. Referee—Mr. Edwards of Chicago. Time of halves—30 minutes. Substitutions—Denison: Sherburne for Jenkins, Moody for Earnshaw, Richardson for Cook. Miami: Fry for W. Sexton. Field goals—Jenkins 3; Wilson 4; Cook 2; Meredith 3; Kersting 2; Coulter, 1 out of 7; Fry 1 out of 4; Coulter 1 out of 15.

HEBRON WINS TWO GAMES.
The Hebron high school girls team defeated the Kirkersville high school girls Friday evening by a score of 18 to 9. The Pleasantville boys were game to last, contesting every minute of the game though the score went against them from the start. Internal Bathing's Rapid Growth

It is but natural to expect that a relief from constipation and the many ills which it causes which so often result in so many deaths. Internal Bathing should quickly make many converts. But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statements of users that they feel as if "made over new" the morning after an internal bath.

The elimination of the pernicious and poisonous waste which is ever present in the lower intestine gives Nature a chance to work unimpeded. And one arises in the morning clean-headed, able, bright, confident and eager for the day's duties.

Mr. F. B. Smith writes:

"Dear Doctor—You 'Cascade' made a new man of me at the age of 40. I persuaded my wife to use the treatment also and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Do not take cold when exposed, hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail at The Hudson Avenue Pharmacy, R. L. Williams, proprietor, 222 Hudson Avenue, corner Oak St., Newark, Ohio. Ask for free booklet, "Why Man of Today Is Only 50 Per Cent Efficient."

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mul-ti-fied coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Daily Friend from Home.

Mr. S. P. Roberts, 2217 Thirty-third avenue North, Birmingham, Ala., writes: "Please send me the dear old Advocate as it will be a daily friend from home. Enclosed you will find postoffice money order."

Mr. Shrock Improving. William Shrock who has been in the City Hospital for some time was able to be out Saturday evening for the first time. Mr. Shrock's right hand was penetrated by a nail and blood poisoning resulted.

Redecorating Room. The Bismark in West Main street is being nicely decorated throughout and the proprietor, John Eader, contemplates a number of other improvements. The work is being done by Lanning Brothers of South Park Place.

Letter from Mr. Fitzgerald. Mr. F. A. Fitzgerald, 234 North Carey street, Baltimore, Md., writes: "Enclosed find money order covering subscription to your paper. Since coming to Baltimore I have neglected to have your paper sent me. I had the pleasure of reading an Advocate two weeks ago. I stopped in the Hippodrome theatre to shake hands with Ernest Moore, the Newark magician, and found him reading an Advocate."

L. C. B. A. Notice. The L. C. B. A. will meet on Tuesday evening in the Knights of Columbus rooms in West Main street.

Daughters of Veterans. The Daughters of Veterans will meet at the G. A. R. hall on Wednesday evening at 7 o'clock, to attend the Americanization program at the High School auditorium.

Hospital Board Meeting. There will be a joint meeting of the board of trustees and the board of lady managers of the City Hospital at the Y. M. C. A. this evening at 7 o'clock.

K. K. K. Mrs. Charles Patton of 341 West Church street was able to be out yesterday for the first time in four months. Mrs. Patton is recovering from an operation.

To Hot Springs. August Maier and Clarence Thompson have left for a six weeks' stay at Hot Springs, Ark. They expect to take the baths at that noted resort and also witness the running meeting of eighteen days, which begins Monday, March 11.

Committee Meeting. There will be a meeting of the members of the Democratic executive committee tomorrow evening at 7:30 o'clock at the headquarters in South Second street. There is important business to transact and it is urged that all members be present.

Plenty of Ice. A number of people journeyed to Buckeye Lake yesterday the report having gained credence that the ice was breaking up. It was erroneous, however, as the ice, which is about 12 inches thick, is still firm. It is quite a sight to be present when the ice goes out and the lake becomes rough and hurls it out upon the banks to a height in some instances of over 20 feet.

Taxi Drivers' Ball. The Taxi Drivers' Association of this city announces its first annual ball tomorrow night at Assembly hall. A luncheon will be served in the balcony and the taxi drivers extend a general invitation to the public to join with them in having a good time.

Recovering From Pneumonia. Miss Mary Sprague who has been ill at her home in North First street, suffering with pneumonia is recovering.

MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it often prevents pneumonia).

NEW JOY IN LIFE FOR THIS WOMAN

Snatched From Suicide Dread After 15 Years' Agony.

SHATTERED HEALTH MENDED

Mrs. Mattie Powers Leaves Home In Kentucky In Quest of Strength After Almost Giving Up Hope—Finds What She Sought But Not in Way She Expected.

"I thought seriously of committing suicide. Life seemed unbearable. I was just a burden to myself and my children. There seemed nothing ahead of me but years of agony. Death would be welcome."

"I had suffered for fifteen years. Seven different doctors had treated me. None of them held out hope. I had been flat on my back in bed for a year. My son had to turn me over with a sheet. I was helpless."

"Today I can do a full day's housework with ease. I can walk miles without tiring. I suffer no pain and enjoy every minute of life. I eat well, sleep well and have no more nervousness. I was weak and no more than a bag of bones; now I am gaining weight so fast I am outgrowing all of my clothes."

Owes Much to "Tanlac." "I feel this to be the solemn truth—all of my regained health has been due to Tanlac, the wonderful medicine I

had never heard of three weeks ago. I can never express my gratitude. I wish I could get up on the houseposts and shout to all the world what this medicine did for me. I have found Tanlac a veritable God's blessing."

The foregoing remarkable statement was made by Mrs. Mattie A. Powers, who lives at 1094 Superior avenue, Cleveland. It is one of scores of reports of similar extraordinary results secured from the use of Tanlac, the modern stomach tonic and system purifier.

Left Home In Kentucky. Continuing, Mrs. Powers said: "If I had not experienced it all myself I could not have believed it possible that any medicine could do for me what Tanlac has done. I was forced to leave my old home near Lexington, Kentucky."

Recovery Is Rapid. "Just three weeks ago I tried Tanlac. Within a very few days I discovered I was sleeping better. I could eat without such terrible pains and my bowels were moving naturally. Color came back into my face and I began to gain in weight. I found I did not tire out when I tried to do housework, and soon it was a pleasure to me. In the first week I gained four pounds. I do not know how much I have gained since then, but I do know that all of my clothes are getting too tight for me."

"I will be only too glad to talk with any one who wants to come and ask me about Tanlac. I feel I never can repay the debt of gratitude I owe to the discoverer of this medicine."

Tanlac may be obtained in Newark at Frank D. Hall's Drug Store.

AMERICAN SHIP OVERDUE 2 WEEKS SEEN NEAR BERMUDA

(Associated Press Telegram) New York, Feb. 19.—The American freight shipship Lorinque, reported two weeks overdue at Boston on her voyage from Povey, England, has been sighted off Bermuda in tow of a Dutch steamship, according to cable advices received here today by the owner, the Garland Steamship company. The Lorinque was last reported leaving Fayal, the Azores, on Jan. 22, and prior to that she had been stopped by a U-boat and ordered to return the survivors of a destroyed ship. She carried these men into Fayal.

GOVERNOR COX MAY ADDRESS MEETING FEB. 21

There is a strong probability that Governor Cox may be one of the speakers at the Americanization night demonstration in the High School auditorium. Wednesday night, State Senator J. Henry Miller, who is to speak, assured the program committee Monday that he would use his best efforts to induce the Governor to accept the invitation to be present. In the event the governor cannot come, Senator Miller has guaranteed to bring some other distinguished state official to help make the gathering a success.

Early today postcards were mailed to the 200 members of the Chamber of Commerce who belong to the Civic Bureau, and Membership Council groups, who are responsible for the Chamber's participation in the affair. Everyone is requested to attend and make it one of the greatest patriotic meetings ever held in Newark. There will be no meeting of the Membership Council Thursday night, the Americanization gathering taking its place. All other members of the Chamber are urged to be present.

The historical pageant to be given by the High School Sophomores, directed by Miss Crilly, will be a beautiful affair. It starts with the landing of the Pilgrims and depicts scenes of American history up to the present time.

Granville

[Special to The Advocate]

Granville, Feb. 19.—This is the week in which is celebrated the Great Birthday, and judging by infallible signs, the Washington banquet on Thursday evening in Shepardsen Commons, promises to be the most notable in its history. Many causes will contribute to such effect, though it is necessary to mention but one: the presence of Edward A. Deeds of Dayton as alumni speaker. The Greater Dayton plans have been announced, and Mr. Deeds, who has been largely instrumental in making these plans possible, will bring a great message to all friends of Denison. You should order your ticket at once.

Beta Theta Pi entertained with a Washington Birthday children's party on Saturday afternoon, February 17th. The guests were appropriately dressed in red, white and blue decorated costumes, each resembling a child. Favors of George Washington hats and place cards in the shape of hatchets along with the decorations lent an attractive air to the occasion. Among those present were the Misses Lily Bell Setton, Edith Wilson, Gertrude Wilson, Ruth Wickenden, Sara Taylor, Olive Hunt, Helen Ray, Ruth Taylor, Olive Trude Wyckoff, Margaret Seasholes, Vashiti Jones, Marian Kendal, Margory Lockman, and Genevieve Aldrich.

"Rocks" Williams was a week-end visitor in Granville over the 18th. Beta Theta Pi entertained the following at dinner Sunday the 18th: Miss Edith Wilson and sister Gertrude Wilson of Dayton, Miss Lillian Hamilton of Franklin, Miss Anna B. Peckham, Mr. Harold Rhoades, 20, Mr. ad Mrs. W. E. Hopkins, Mr. Culver Hopkins and "Rocks" Williams, 15.

Henry Stout of Dayton was a week-end visitor at the Sigma Chi chapter house.

Mr. and Mrs. John Manuel of Cleveland are visiting Mr. and Mrs. J. S. Jones at Bryn Du farm, for a few days.

A large and representative audience attended the opening of the picture show in the Granville Opera House Saturday evening and all were enthusiastic in their praise of the performance. The light is excellent, the screen the best that could be procured, "The Chatter," which features E. H. Sothern, is full of beautiful gripping scenes, without a single objectionable phase. There will be a feature film again this evening, beginning at 7 o'clock sharp. Two performances.

Miss Catherine Shepard, who is visiting at the home of Dr. and Mrs. L. E. Davis, aided in the music Sunday morning at the Methodist church. Miss Shepard played as an offertory the beautiful "Meditation" from Thais, to the delight of the large congregation present. Another special feature of the musical program Sunday morning was the soprano solo by Miss Jessie Burns of Shepardsen college.

Miss Grace Chamberlain, Granville librarian, has been on the sick list for several days. Her assistant, Miss Helen Cook is filling the position.

Mrs. Edward P. Hobart is still quite ill at her home on the Newark road.

Harold Kier, 16, who is in business in Dayton, visited his parents, Mr. and Mrs. T. M. Kier over Sunday, and was also a guest at Sigma Chi house. Other Dayton Sigma Chi alumni who attended the Miami-Denison game Saturday evening were William Huffman, Henry Stout, Messrs. Sargant and Morrell.

Over one hundred girls of Shepardsen College have enlisted in the Red Cross Army and will begin their "drilling" this week. Miss Annabell Bradstreet, physical director of Shepardsen College, has organized classes in First Aid, such as are now assembling all over the land. She will offer two sections of one each, meeting each Monday and Friday evening from 7:15 to 7:45. The course embraces instructions in carrying the wounded, dressing wounds, and bandaging. At the close, a Red Cross representative, approved by the association, will conduct an examination and all successful candidates will receive the Red Cross Certificate. "How better can girls serve their country by preparing themselves to care for the wounded of a republic?"

freedom of opportunity."—Denisonian.

Mrs. C. W. Chamberlain, president of the Baptist Ladies Social Union, called the meeting to order on Friday afternoon, and after brief devotional services, proceeded to the transaction of the annual business. Reports from committees were unusually interesting and showed a flourishing condition both in funds and in enthusiasm. The matter of the annual church dinner usually undertaken by this organization was referred to a committee of ten headed by Mrs. E. E. Hopkins, which is to report at the next meeting. These officers were elected: Mrs. C. W. Chamberlain, president; (unanimously re-elected); Mrs. T. F. Chambers, first vice president; Mrs. J. C. Grissinger, second vice president; Mrs. John Thomas, secretary; Mrs. Lillie Wilson, custodian of records. (The time limit to this office was removed and Miss Wilson was unanimously re-elected.) House committee, chairman, Mrs. C. E. Frank; flower committee, chairman, Miss Carrie Howland; visiting committee, chairman, Mrs. J. G. Ewart. The status of the program committee, requiring discussion, the entire matter was laid on the table until the next meeting. There was no social hour, no program and no hostesses at this strictly business session.

Mrs. Hubert Robinson delightfully entertained with a tea Friday afternoon at her home in Broadway for the benefit of The King's Daughters and over sixty ladies called. Delicious refreshments were served by the hostess, assisted by Mrs. Bert Everett, Mrs. Chester Montgomery, Mrs. Edward King and Mrs. Rowley. Mrs. Robinson is the leader of one of the five divisions of the Granville circle engaged in raising funds for the continued service to the sick and "shut in" of the community, a service so highly appreciated that the public responds whenever it is given the opportunity to cooperate.

The girls of the Philomathean Literary society of Shepardsen college varied their activities by giving a delightful party to their men friends Friday night in Cleveland hall. A charming little play was given in Sherwin Hall, followed by a social hour during which refreshments were served by a competent committee.

Rev. and Mrs. Clarence Eddy of Zanesville with their two children, have been visiting their parents, Rev. and Mrs. C. N. Harford, in Elm street for a few days.

Mrs. H. H. Bayden is one of the sufferers from grip at her home in West Broadway.

Prof. Harold D. Fish, who has been ill for several weeks is again able to be out.

Dr. A. K. Follett states that it is much easier to give a list of the well people in Granville at present than to mention half of those who are sick.

The old Sheppard property on the Burg street hill, consisting of some four or five acres, has been bought by E. A. Deeds for Denison University.

The Granville board of education has awarded the school bonds to the New First National Bank of Columbus, the highest bidder, offering a premium of \$1760. This board has revised the health rules of the school and published them in the home paper, and it also voted to seek a spring vacation for the first week in April.

Miss Katharine Shepard of Wyoming, O., is visiting for a few days at the home of Dr. and Mrs. L. E. Davis in Elm street. Miss Shepard, who is a violinist, has been filling concert engagements under the management of the National Alliance Lyceum Bureau and has met with distinguished success.

Meat Unnecessary

SAYS J. H. WATSON, M. D.

Meat is the most expensive article of diet, and the least necessary. Add milk, cheese, fruit, fish, to vegetable articles and you have a good diet. The rheumatic should abstain from meats, or eat very sparingly. It is a well-known fact that in gout, serious organic disease of the kidneys occurs. Such scientists as Fletcher, Minkowski, Hans, Vogt and Reach have shown that uric acid in excess is retained in the blood when the kidneys do not help excrete this poison. Uric acid retained within the body is believed to be the preceding stage or cause of Bright's disease. The excessive use of nitrogenous food or meats often increases uric acid.

High living, intestinal indigestion, constipation, disturbance of the liver, frequent chilling of the body—all result in retaining within the body an excess of uric acid.

The best way to overcome this condition and prevent rheumatism and gout is to drink plenty of water, say, a pint of hot water morning and night with lemon juice squeezed into it, and take Anuric (double strength) three times a day. This can be obtained at any drug store. This is my invariable prescription for the rheumatic person, and it usually follows that the rheumatic pains, the backache, such as lumbago, pains in the back of the neck or limbs, will disappear. This Anuric by its tonic effect upon the kidneys encourages them to a greater activity, and thereby the uric acid is thrown out of the system. It is also well to prevent auto-intoxication, to take bending exercises every morning, plenty of water between meals, and at least once a week take a vegetable laxative. Such a one is made of Marseilles, extract of vegetable calomel and root of jalap, easily obtained at any drug store because sold for fifty years under the name of Dr. Pierce's Peppermint.

KENTUCKY PRIEST CONDUCTS RETREAT AT CATHOLIC CHURCH

On Sunday evening a large congregation assembled at St. Francis de Sales church for the opening of the retreat which will be conducted for a week, under the auspices of the Knights of Columbus.

Rev. Father P. J. Cahill, from the Dominican mission headquarters at Louisville, Ky., will have charge of the services and will deliver a sermon each evening at 7:30 o'clock. Possessing magnetism as a speaker and having an appealing voice the first sermon on "The Soul" on Sunday evening made a lasting impression on the minds of the congregation. Father Cahill spoke of the shortness of the span of life, and of the trifling influences that caused the loss of the soul, when man could do so much to protect himself against temptation. "The devil works from morn to morn, and if a soul means that much to him, should it not mean enough to the man to try and protect it."

There will be mass every morning at 5:00 o'clock, and this evening Father Cahill will speak on "The Occasions of Sin."

Everyone is invited to attend, the men and women of the congregation and all non-Catholics who are interested.

FIVE AMERICAN SHIPS SAIL; MORE READY TO LEAVE

New York, Feb. 19.—Five American ships from this port are now on the German submarine warfare and several others are ready for immediate departure. Three of these vessels, the Orleans and the Rochester, for Bordeaux and the Oswego for Genoa are now approaching the blockade line in the bay of Biscay and the Mediterranean.

The City of Pueblo, a freighter of 2624 tons, owned by the Narrey Steamship company, got away yesterday for Havre. Her captain and crew are Americans. The crew are to receive a war bonus of 50 per cent of their pay at the end of the voyage.

Among the American ships ready to sail today are the Algonquin, freighter, and the Mongolia, which is equipped to carry passengers.

In addition to the City of Pueblo twelve steamships sailed from New York yesterday, presumably by routes that will carry them through the zone of blockade. Three vessels, one of them an American, arrived after passing through the restricted area.

Health department reports show that 7,000 pounds of food brought to this port by ships during the last twenty weeks have been condemned and destroyed as unfit for consumption. The value is estimated at \$1,600,000.

Lucius P. Brown, head of the food and drugs division of the health department says that part of the condemnation was due to war conditions, including delays in arrival and the loading of perishable cargoes in ships not designed for such purposes.

FR. O'BOYLAN TO DO MISSION WORK IN THE MOUNTAINS

Rev. Father B. M. O'Boylan, pastor of St. Francis de Sales church, leaves today for North Carolina. He will join Rev. Father Callahan, a mission worker through North Carolina and eastern Tennessee, who recently visited Newark and spoke at St. Francis de Sales church. Father O'Boylan will assist Father Callahan in the mission work among the people of the mountains for two or three weeks.

DEPUTY WARDEN FRANK DINSMORE PAYS TRIBUTE

"I Cheerfully Recommend Nerv-Worth for Run-Down People" Declares Coshocton Man.

Coming from such a source and in such convincing form, the following statement is certain to attract widespread attention.

"While in Columbus some time ago, I was persuaded to take a sample dose of Nerv-Worth by the demonstrator, and after the first dose I concluded I'd try a bottle when I got home."

"I'm tired out and my system was run down. Thought a tonic like Nerv-Worth would do me good, which I found brought the answer. I'm highly pleased with the result and cheerfully recommend Nerv-Worth for run-down people."

URGES PRESIDENT TO SPEED PASSAGE OF DAYLIGHT BILL

(Associated Press Telegram)

New York, Feb. 19.—Marcus M. Marks, president of the National Daylight association, announced today he had written to President Wilson, urging him to expedite passage of the Gallinger-Borland bill, now in the hands of committees, providing for turning the clock forward one hour during the summer months. Reports received by the association indicate, Mr. Marks said, that if the United States adopts the plan it will then be submitted by Canadian business organizations to the dominion for consideration.

Shoots Up Home; Bogaski Fined \$5 by the Mayor

George Bogaski went home Saturday night, and proceeded to shoot up the house after assaulting his wife and striking her over the head with the revolver, according to the wife's story to Mayor Bigbee this morning. No one was shot but Bogaski was fined \$5 and costs for discharging firearms within the city limits.

PLAIN QUESTIONS TO NEWARK PEOPLE

Every Newark Reader Will Admit the Soundness of the Logic

Would Newark people recommend Doan's Kidney Pills as they do if the medicine were not reliable? Would they confirm their statements after years have elapsed if their experiences did not show the remedy to be deserving of it? Statements like the following must carry conviction to the mind of every reader:

C. L. Starr, harness maker, 28 W. Church St., Newark, says: "I suffered for years with kidney complaint. The misery and weakness across my loins was with me night and day. If I attempted to stoop a pain struck me and I almost fell. If I was in one position long, any more would be painful. Doan's Kidney Pills knocked the backache out of me and fixed me up in good shape."

STILL USES DOAN'S
Over nine years later, Mr. Starr said: "Doan's Kidney Pills fix me up in good condition whenever I have an attack of kidney complaint." 50c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Advertisement)
